SUMMARY

I am a web developer that loves the way technology affects the world. My passion is working on projects that utilize technology to help solve real problems. I stay driven by continually learning new skills and languages . Currently, I am working on learning a few Javascript frameworks such as AngularJS and React.

SKILLS

PROGRAMMING LANGUAGES: Ruby, Javascript (Ajax, jQuery), HTML5/CSS3, SASS
DATABASE AND TESTING: PostgreSQL, SQLite, TDD (RSpec, Jasmine, Capybara)
PLATFORMS & SERVICES: Rails, Sinatra, Heroku, AWS S3
OTHER: Git, Github, Agile Developement, Object-Oriented Design, Bootstrap
FAMILIAR WITH: React, AngularJS

PROJECTS

Prism

The goal of this project was to construct a web application that analyzes an image, and creates a musical piece that matches it. This was achieved through the use of countless algorithms that take advantage of inherent traits on a given image. The front end design inspiration came from a strong desire to create something unconventional and different. Thus, PRISM was created. Now anyone can find their own sound and create what is quite literally the soundtrack of their life. This project was built in Ruby on Rails, with selected pieces of jQuery and JavaScript sound libraries.

EXPERIENCE

Web Developer in Training
Dev Bootcamp   Sep 2015 to Feb 2016
- Deep dive into front and back-end development using Ruby, Rails, HTML5/CSS3, and Javascript (jQuery & Ajax).
- Co-created Prism - AWS S3 service integration, deployment to Heroku, developed audio player controls.

Staff Accountant
Taylor Farms   Mar 2013 to Aug 2015
- Maintained integrity of general ledger
- Helped implement cost-benefit analysis throughout the organization.

Accounting Specialist
Taylor Farms   Mar 2011 to Mar 2013
- Managed vendor rapport by solving discrepancies, reconciling accounts, and establishing good communication
- Developed internal controls for purchasing, receiving, and accounting departments.
- Analyzed and created weekly Purchasing and Sales reports to help increase cost savings

EDUCATION

Dev Bootcamp
Full Stack Web Developer Training

University of Illinois at Chicago
Bachelors of Science Finance 2009
Minor - Management Information Systems
